Join the Graduate Student Union Professional Development Committee for a series on Exploring Non-Academic Careers. Each session will be composed of panelists that will provide insight into their own career path and be available to answer questions and for professional networking. For each session, graduate students that register and attend will be entered into a raffle for the opportunity to win one of several Professional Development Grants ($150) awarded by GSU. [Please fill out this form (bit.ly/GSUPD2021) to register for the event and be included in the raffle.]
